White Plains 9-0180

Scarsdale 3-4600

We carry a complete stock of vegetable seeds and can supply all standard as well as new and outstanding varieties.

Egg Plant, Pepper, Tomato and all vegetable plants ready about May 15th.

Garden time!

ONION SETS

We offer choice, dry select sets, the best to be had. These should be planted very early in the spring, the earlier the better. One pound will plant approximately 30 feet of row.

YELLOW SETS. Will mature into large, rounded Onions with yellow skin and creamy white, mild flesh. Excellent keeping qualities for winter storage.

WHITE SETS. Mild flavored and most desirable for use as scallions. Not so good for winter storage as the yellow type.

1 lb., 35c; 2 lbs., 65c; 5 lbs., \$1.50.

GARLIC SETS

Garlic comes in bulbs which should be separated, planted and cultivated the same as Onion sets. 1 lb., 60c.

HORSERADISH ROOTS

MALINER KREN. The true Bohemian Horseradish and the standard variety for condiment use. Well known for its vigorous growth and large sized, white roots. 6 roots, 50c; 12 roots, 90c.

MUSHROOM SPAWN

Mushrooms may be grown in boxes or benches in the cellar or in barns or outbuildings. "How to Grow" directions are sent with every order of spawn. One package will plant 10 to 12 square feet. One pkg., 50c; 5 pkgs., \$2.25; 10 pkgs., \$4.25.

SWEET POTATO PLANTS

Sweet Potatoes are easy to grow. May be grown on a wide range of soils. Ready about May 20th to 25th.

NANCY HALL. An old favorite of uniform excellence. 12 plants for 35c; 50 for \$1.00.

ASPARAGUS

MARY WASHINGTON. A rust-proof strain preferred by commercial growers and home gardeners alike. One of the most delicious and earliest of the home grown crops. Contrary to general belief, Asparagus does not require too much space for the small home garden. A hundred plants will be sufficient for the ordinary family. Stalks of Mary Washington are larger and more tender than those of other varieties. Dark green in color, tinged purple. With ordinary care, Asparagus beds will last for many years. Our 2-year-old roots will give some cutting next year and after that all you will want. 25 for \$1.25; 50 for \$2.25; 100 for \$4.00.

RHUBARB

CHIPMAN'S CANADA RED. The new and finest Rhubarb. Very sweet and tender; of the finest flavor with extra large stalks. Bright red all the way through. It is a seedless type which makes it everbearing and can be used throughout the entire summer. 1 root, 75c; 2 for \$1.25; 5 for \$2.75; 10 for \$5.25.

MacDONALD. A new Rhubarb of very fine quality. Bright crimson and unsurpassed flavor. When cooked, the color is a beautiful shade of pink. Does not produce fertile seed and can therefore also be used all summer. 2 roots, \$1.10; 5 for \$2.45; 10 for \$4.75.

FOR THE
GARDEN

STRAWBERRIES

STANDARD VARIETIES

PREMIER, Early. Healthy foliage, solid, well-shaped large fruit. Does well under all conditions. Some tell us this is the best of all.

DORSETT, Early to Midseason. Plants vigorous, producing runners in abundance. Stalks are strong and fruit is held well above the ground. Outstanding merit of this berry is its delicious flavor.

CATSKILL, Midseason. A sure cropper, with many big, tasty berries for a long period.

FAIRFAX, Early to Midseason. Hardy and disease resistant. Berries are large and bright red. Even when over-ripe the fruit retains its firmness and delicious flavor.

CHESAPEAKE, Midseason to Late. Splendid grower, plants are deeply rooted, vigorous and healthy. One of the best in flavor, shape, size and color.

All Above: 25 for \$1.15; 100 for \$3.50.

EVERBEARERS

Because they make few runners, everbearers can be planted closely. Rows can be 30 inches apart with plants 12 to 15 inches apart in row. Keep all blossoms off until July of the first year.

STREAMLINER, Everbearing. The newest of the everbearing types. A Michigan origination which makes it hardy. Perfect flowering. Berries are practically round, extremely bright red and of immense size. Very sweet.

MINNESOTA 1166, Everbearing. Reproduces well under ordinary conditions. Immense berries are very dark red and solid. Plants withstand cold winters, dry summers and light soils.

25 for \$1.90; 100 for \$6.00.

HARDY GRAPES

The following makes a fine assortment for the small home garden. Strong, two-year-old vines.

CONCORD. Blue. The leading big crop, dark blue Grape. Ripens late and bears enormous crops of first quality fruit. 60c each.

CACO. Red. Juicy, sweet, extra early with large, long, compact bunches of fruit. 75c each.

NIAGARA. Amber. Often called the white Concord. Ripens late, very sweet and aromatic. Keeps well. 60c each.

NEW SEEDLESS GRAPES

SEEDLESS CONCORD. The new Grape deluxe. Combines all qualities which made Concord famous and now without seeds. Heavy rooted, 1-year vines, \$1.10 each; 3 for \$3.00.

GOLDEN MUSCAT. One of the finest new Grapes. Large, sweet, juicy and firm in flesh. Heavy rooted, 2-yr. vines, \$1.50 each; \$15.00 per doz.

RASPBERRIES

Plant Raspberries in well-drained cultivated soil. Set plants with the crown or eye about 1 inch below ground level. Plants should be set 4 feet apart. As soon as the bearing season is over, all old wood or canes should be cleaned out and new growth cut back about one-third.

INDIAN SUMMER, New Everbearing Red Raspberry. This fine berry may be enjoyed from June to November. In addition to its everbearing qualities it has size, flavor and unusual beauty. Easy to grow, require but little care. \$2.50 per doz. No. 1 plants. Standard varieties.

CHIEF, Early Red. Unusual size, flavor and beauty. One of the best for the home garden. \$2.00 per doz.

LATHAM, Red Late. Berries nearly one inch across with delicious flavor. Heavy bearer. \$2.00 per doz.

CUMBERLAND, Black. For many years the most popular Black Raspberry. Produces enormous crops of large, jet black, firm, sweet berries with a flavor that can't be beat. \$1.50 per doz.

BLUEBERRIES

2-year-old, No. 1 plants, \$1.50 each.

More than one variety of Blueberry should be planted to insure pollenization. The ideal plant for low spots where soil is acid. May be used as an ornamental shrub, as foliage and blooms are very attractive.

RANCOCAS, Early Bearing.

RUBEL, Midseason.

JERSEY, Late.
